

# SHAHRIYAR AHMAD

## FRONTEND DEVELOPER

### PROFESSIONAL SUMMARY

As a front-end developer with a project-based learning background, I have honed my skills in developing visually appealing and user-friendly websites. Through self-motivation and a passion for learning, I have acquired a solid foundation in HTML, CSS, and JavaScript and am eager to learn and apply these skills to create engaging digital experiences.

Virtual University  
BS - Software Engineering  
Oct 2022 - Present

### MY PROJECTS

#### E-commerce Store

HTML5, Bootstrap, Java Script

I have built an E-commerce store using HTML5, Bootstrap, and JS. In this users can add product to a cart and search for the product. It is with very responsive and user-friendly UI.

#### Weather App

HTML5, Bootstrap, Java Script, & API

Created a Weather Web App using HTML5, Bootstrap, JS, and Weather API. In this Web App users can search for temperature and many other weather parameters of a place. It is responsive and user-friendly.

#### Code Editor

HTML 5, CSS 3, Java Script

Built a simple code editor using HTML5, Pure CSS, and a little twist of JS. In this code editor users can write HTML, CSS, and JS code separately. and can see their Output. It is simple and responsive.
