

SHAHRIYAR AHMAD

FRONTEND DEVELOPER

PROFESSIONAL SUMMARY

As a front-end developer with a project-based learning background, I have honed my skills in developing visually appealing and user-friendly websites. Through self-motivation and a passion for learning, I have acquired a solid foundation in HTML, CSS, and JavaScript and am eager to learn and apply these skills to create engaging digital experiences.

MY PROJECTS

E-commerce Store

HTML5, Bootstrap, Java Script

I have built an E-commerce store using HTML5, Bootstrap, and JS. In this users can add product to a cart and search for the product. It is with very responsive and user-friendly UI.

Code Editor

HTML 5, CSS 3, Java Script

Built a simple code editor using HTML5, Pure CSS, and a little twist of JS. In this code editor users can write HTML, CSS, and JS code separately. and can see their Output. It is simple and responsive.
